

ABOUT CASPR

CASPR stands for Continuous Air & Surface Pathogen Reduction. Our patented technology was originally developed for hospitals and is now trusted in schools, airports, buses, and homes like yours.

CASPR Home PRO Elite installs directly into your HVAC system and works continuously to reduce certain viruses, bacteria, mold, allergens, and odors, in the air and on surfaces, using safe levels of hydrogen peroxide.

There are no harsh chemicals, no noise, and no effort required. Just cleaner, healthier air for your entire home, every day.

HOME PRO ELITE SNAPSHOT

Installation: HVAC-duct-mounted inside existing system

Coverage: 2-7.5 ton HVAC systems

Maintenance: Replace the NC2I cell and bulb every 18-24 months.

THE PROBLEM

YOUR HOME'S AIR ISN'T AS CLEAN AS YOU THINK

Every time you breathe, open a door, cook dinner, or bring something inside, you're adding invisible contaminants into your home. In fact, indoor air can be up to 5x more polluted than outdoor air.

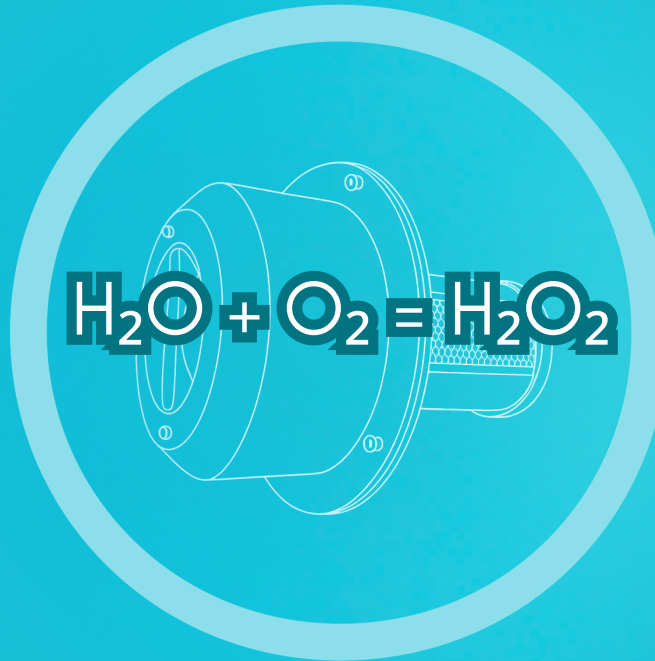

WHAT COULD BE IN YOUR HOME RIGHT NOW?

- 1 **Viruses** and **bacteria** that linger on surfaces and float in the air
- 2 **Mold** spores and **allergens** that aggravate health issues
- 3 **Odors** from pets, cooking, cleaning products, and more
- 4 **Volatile Organic Compounds** from items like furniture or flooring

THE CASPR SOLUTION

HOSPITAL-TRUSTED TECHNOLOGY, NOW FOR YOUR HOME

Our Natural Catalytic Converter Innovation (NC2I) process uses your indoor air ($\text{H}_2\text{O} + \text{O}_2$) to create a safe level of hydrogen peroxide (H_2O_2)—just 0.01-0.04 ppm.

Safe levels of H_2O_2 are dispersed through your home via your HVAC system, continuously reducing pathogens, allergens, mold, and odors on both surfaces and in the air.

**No harsh chemicals. No noise.
No effort.**

WHY CASPR?

A COMPREHENSIVE SOLUTION FOR WHOLE HOME SANITATION

Most solutions, like filters, only capture or treat what passes through them. They don't reach surfaces. They don't work continuously. As a result, they leave gaps between uses.

THE CASPR ADVANTAGE

Most products only treat air. CASPR disinfects what you breathe and what you touch.

No need to remember to spray, wipe, or turn on. CASPR works every minute your HVAC is on.

Independent testing confirms up to 99% effective against various viruses, bacteria, and mold.

Trusted Nationwide – used in hospitals, schools, buses, and now in your home.
